

Furnace & AC Tech With “Top Shelf Fix It Skills”

You're a tinkerer at home, you like fixing things. You love to help PEOPLE EVEN MORE. You put smiles on all age groups, because you think of everyone you meet like family, which is our motto. You're neat, clean, and SUPER HONEST. A fun weekend is you taking things apart and putting 'em back together again.

YOU WANT MORE than the place current job's givin' you. You're a fast learner. Family calls you for everything from a plumbing garbage disposal to startin' the mower. You've recently thought **it's time for your family to raise the bar on your standard of living**, We know You want to BUILD A SOLID CAREER and **do better for you and your family**.

We'd like you to join our team of **EAGLES** and SOAR to help you make **a ton of money** plus a bunch of benefits, time off, bonus money, daily and monthly contests. Our guys are making **SIX FIGURES** and the sky's the limit. Shoot, I started out at the bottom of the service department and worked my way up to owning the company.

I'm Jeff Williams, Founder of JW Plumbing Heating and Air. We've built the best air conditioning and plumbing company in LA and dominate the market. And **I want you to be part of our team** to keep our happy customers happy..

You can **make lots of money**, Enjoy more time, work with, not for Management....What are you waiting for?

YOU GOTTA BE ABLE TO DO:

- Make technical explanations and recommendations
- Listen to what they want more than what you want to sell them
- Figure out what's goin' on with customers equipment and what could go wrong
- Be able to serve with smiles
- Keep working until that system's tuned to peak efficiency
- Stay clean while your visiting, be SUPER kind to kids & pets

If that sounds like it's right up your alley, USE THE FORM to send me an email. I'll only read it if you put "I'm that tech you want, Randy" in the subject line.

Of course we're gonna make sure your BACKGROUND CHECK IS CLEAN. Plus you gotta have a CLEAN DRIVING RECORD so that when we give you one of our nice and shiny blue and orange trucks with the little 50s' dude on it, we know you'll be safe

WE HAVE FUN AT WORK. We celebrate birthdays and get fired up at all our meetings. We've even got a competition to see which teams give the best service to our family. Ain't no way you can win unless **you got a whatever it takes tattooed on your heart**, Meanin' you'll do **whatever it takes** to make it right for our customers (our family), WHATEVER... IT... TAKES.

Join our family of rock-star technicians and installers. If you can make it happen, I'll do whatever it takes to MAKE YOUR DREAMS HAPPEN. I look forward to talkin' to you.
